Join Cal Teach on Giving Day!

We need your support to raise funds for Cal Teach intern scholarships. Your gift of any size to Cal Teach will help prepare and sustain California’s future math and science teacher leaders. Donate and spread the word on Giving Day — Wednesday, March 8th! Many donations of at least $10 or more will help us compete for additional prize funds.

Students: Join us to launch our Giving Day campaign with a postcard coloring party Thursday 3/2 from 3-4 pm in the Cal Teach lounge, or stop by the Brett’s office before March 8th to get involved.

Internships for continuing CaT students this spring

Excited about continuing your Cal Teach experience and exploring new pedagogical strategies? Check out our Spring Opportunities!

• CaT2 Math: Tu 05:20PM-06:55PM
• CaT2 Science: Tu 03:20PM-04:55PM
• CaT3 Math/Science: Th 05:20PM-06:55PM

**First-time interns can enroll in Spring for Fall 2017 CaT1 classes.**

CaT2/CaT3 priority deadline has passed. Fill out an intent form ASAP if interested!

CaT Independent Study Options: Special Project or CaT4

Experienced Cal Teach interns who have completed at least CaT1 may pursue an individual internship project. To get started, read the online information on CaT4 and CaT: Special Projects and come up with an idea, then meet with Tammy or Gretchen by 3/18.

Special Project: Learning Assistant for Bio 20A Active Learning Course

Work closely with the instructional team to support student learning in an active learning classroom and attend weekly pedagogy classes. Apply by March 8th.

LA Application Form

Special Project: Math Games with Monterey Bay Area Mathematics Project’s Judith Montgomery

Learn engagement strategies for math teaching and help host the MBAMP Spring Conference for local math teachers. Apply by March 6th.

Math Games Application Form
Cal Teach-sponsored summer opportunities for undergraduates

Summer is an important time for prospective teachers to develop knowledge and skills for teaching careers. Cal Teach recommends that our interns seek opportunities for growth through teaching experiences or by getting involved in scientific research.

**Continuing Cal Teach Interns**

1) **UCSC Summer Teaching Internships**
   Some 1- to 6-week mentored, paid teaching opportunities will be offered working with K-12 or entering community college students at partner sites in Santa Cruz and the broader Monterey Bay and the Silicon Valley region. To be informed as details are developed, sign up [here](#).

2) **UCSC Lab Internships for Future Teachers**
   UCSC-based lab internships for future K-12 teachers with required course at UC Berkeley. Lab placements to be determined. You can read about 2016 opportunities [here](#).

3) **UC Berkeley Summer Research Institute**
   [Apply NOW](#) if you are interested in a research lab placement and required course at UC Berkeley this summer.

Summer 2017 Intensive Internship

Program dates: September 18-22, 2017

Apply for the Cal Teach Intensive Internship. This Internship is a one-week program introducing new interns to a future career teaching math and/or science in high-need middle or high schools in Santa Clara and Monterey Counties. Advanced CaT interns are encouraged to apply for this all-day, week long internship to complement your CaT experiences during the school year. STEM professionals considering a career change, incoming community college transfer students, and continuing UCSC students are all eligible to apply.

**Application link**

*Priority Deadlines*
- Continuing UCSC students: April 19th
- Incoming transfer students: June 1st

---

Summer Professional Development for Host Teachers and Grads

**MBAMP Spring Conference:** Date TBD
**MBAMP Summer Institute:** June 19-21, 2017
**Cal Teach Berkeley Summer Research Institute:** [Apply ASAP](#)
**AMTA Summer Modeling Workshops:** Dates vary, see link for details

---

THANK YOU DONORS!

We are honored by recent gifts from Cal Teach graduates Sam Hilkey and Lucas Jones, parents Gary and Leigh Firestone, and faculty collaborator Doris Ash. We are grateful for repeat gifts from Professor (emeritus) Ed and Miriam Landesman, Kent Morrison and Estelle Basor, Judith Fried and Bob Scowcroft, Vivian and Shahe Moutafian, Stephen and Rachel Thorsett, Molly Shaw (formerly Deich), Dyke Andreasen, and Stephen and Mona Bruce. Several repeat donors have provided match funds to double Giving Day donations to Cal Teach. All these gifts help Cal Teach provide direct financial support to future math and science teachers and early career teachers.
